

TOMS CONNECT 2022

A CELEBRATION OF ^{at least} 40 YEARS
MEASURING THERAPY OUTCOMES

Birmingham, Tues 15th Nov

With 1000s of AHPs and therapists trained in outcome measurement, come and connect with experienced users of the TOMs who will be showcasing the work that has helped to shape and the quality of services including rehabilitation & SEN

TOMs CONNECT first took place in 2016 and was a direct result of requests from various health services across the UK starting to be trained on how to use the Therapy Outcome Measures. They wished to learn more from rehabilitation services across the NHS that had already implemented the TOMs to evaluate and shape community rehabilitation service delivery.

Six years on and we are thrilled to be running a TOMs CONNECT conference to celebrate over 40 years of measuring therapy outcomes, which was started by Professor Pam Enderby, who worked with Dr Alex John, to create the TOMs. Read more....
